

# Index of Authors

## VOLUME 82 (1992)

(Authors from abstracts from Society Proceedings are not included)

Abdullaev, Y.G., see Bechtereva, N.P. (82) 296  
Adrien, J.L., see Martineau, J. (82) 60  
Ahlfors, S., see Huttunen, J. (82) 176  
Ahlfors, S.P., Ilmoniemi, R.J. and Hämäläinen, M.S.  
Estimates of visually evoked cortical currents (82) 225  
Åkerstedt, T., Hume, K.I., Minors, D.S., Waterhouse, J.M. and Folkard, S.  
Sleep on a shortening day/night schedule (82) 102  
Algazi, A., see Alho, K. (82) 356  
Algazi, A., see Woods, D.L. (82) 341  
Alho, K., Woods, D.L., Algazi, A. and Näätänen, R.  
Intermodal selective attention. II. Effects of attentional load on processing of auditory and visual stimuli in central space (82) 356  
Alho, K., see Woods, D.L. (82) 341  
Allen, P.J., Fish, D.R. and Smith, S.J.M.  
Very high-frequency rhythmic activity during SEEG suppression in frontal lobe epilepsy (82) 155  
Allen, P.J., Smith, S.J.M. and Scott, C.A.  
Measurement of interhemispheric time differences in generalised spike-and-wave (82) 81  
Allison, T., see Jones, S.J. (82) 125  
Asenbaum, S., Lang, W., Egkher, A., Lindinger, G. and Deecke, L.  
Frontal DC potentials in auditory selective attention (82) 469  
Autret, A., see De Toffol, B. (82) 432  
Ball, W.A., see Sanford, L.D. (82) 458  
Balmaseda Conde, A., see Coutin Churchman, P. (82) 139  
Bär, P.R., see Kraaier, V. (82) 208  
Bardocci, A., see Falsini, B. (82) 53  
Barthélémy, C., see Martineau, J. (82) 60  
Bechtereva, N.P., Abdullaev, Y.G. and Medvedev, S.V.  
Properties of neuronal activity in cortex and subcortical nuclei of the human brain during single-word processing (82) 296  
Beydoun, A. and Drury, I.  
Unilateral 14 and 6 Hz positive bursts (82) 310  
Boiten, F., Sergeant, J. and Geuze, R.  
Event-related desynchronization: the effects of energetic and computational demands (82) 302  
Bolzani, R., see Falsini, B. (82) 53  
Booke, J., see Marks, D.A. (82) 23  
Brandeis, D., see Michel, C.M. (82) 38  
Brennum, J. and Jensen, T.S.  
Relationship between vertex potentials and magnitude of pre-pain and pain sensations evoked by electrical skin stimuli (82) 387  
Breton, F., see Robaey, P. (82) 330  
Chatrian, G.-E., see Pauri, F. (82) 1  
Coen, R.W., see Liu, A. (82) 30  
Coutin Churchman, P., Oramas, S. and Balmaseda Conde, A.  
Vector analysis of brain-stem auditory evoked potentials in patients with multiple sclerosis and subtentorial tumors (82) 139  
Curtis, S., see Kaufman, L. (82) 266  
Deecke, L., see Asenbaum, S. (82) 469  
Deecke, L., see Lang, W. (82) 285  
Degiovanni, E., see De Toffol, B. (82) 432  
De Toffol, B., Autret, A., Gaymard, B. and Degiovanni, E.  
Influence of lateral gaze on electroencephalographic spectral power (82) 432  
De Weerd, A.W., see Jonkman, E.J. (82) 438  
Diamond, S.P., see Glass, A. (82) 10  
Drury, I., see Beydoun, A. (82) 310  
Duckrow, R.B. and Spencer, S.S.  
Regional coherence and the transfer of ictal activity during seizure onset in the medial temporal lobe (82) 415  
Dugas, M., see Robaey, P. (82) 330  
Echallier, J.F., Perrin, F. and Pernier, J.  
Computer-assisted placement of electrodes on the human head (82) 160  
Egkher, A., see Asenbaum, S. (82) 469  
Egli, M., see Hilfiker, P. (82) 255  
Emmen, H., see Jonkman, E.J. (82) 438  
Erdly, W.W., see Pauri, F. (82) 1  
Falsini, B., Bardocci, A., Porciatti, V., Bolzani, R. and Piccardi, M.  
Macular dysfunction in multiple sclerosis revealed by steady-state flicker and pattern ERGs (82) 53  
Fein, G., see Galin, D. (82) 87  
Ferenci, P., see Grimm, G. (82) 119  
Fischer, J.P., see Holl, G. (82) 445  
Fish, D., see Lemieux, L. (82) 399  
Fish, D.R., see Allen, P.J. (82) 155  
Fisher, R.S., see Lesser, R.P. (82) 239  
Flotzinger, D., see Pfurtscheller, G. (82) 313  
Folkard, S., see Åkerstedt, T. (82) 102  
Gade, J., see Kemp, B. (82) 391  
Galin, D., Raz, J., Fein, G., Johnstone, J., Herron, J. and Yingling, C.  
EEG spectra in dyslexic and normal readers during oral and silent reading (82) 87  
Gangl, A., see Grimm, G. (82) 119  
García-Austi, E., see Paz-Caballero, M.D. (82) 369  
Garreau, B., see Martineau, J. (82) 60  
Gaymard, B., see De Toffol, B. (82) 432  
Geuze, R., see Boiten, F. (82) 302  
Giesser, B.S., Schroeder, M.M., LaRocca, N.G., Kurtzberg, D., Ritter, W., Vaughan, H.G. and Scheinberg, L.C.  
Endogenous event-related potentials as indices of dementia in multiple sclerosis patients (82) 320  
Glass, A., Zappulla, R.A., Nieves, J. and Diamond, S.P.  
EEG coherence as a predictor of spike propagation (82) 10  
Gomi, H., see Ochikubo, F. (82) 145  
Goto, K., Wakayama, K., Sonoda, H. and Ogawa, T.  
Sequential changes in electroencephalogram continuity in very premature infants (82) 197  
Grand'Maison, F., see Reiher, J. (82) 17

Grimm, G., Madl, C., Katzenschlager, R., Oder, W., Ferenci, P. and Gangl, A.  
Detailed evaluation of evoked potentials in Wilson's disease (82) 119

Hahn, J.S., see Liu, A. (82) 30  
Hämäläinen, M.S., see Ahlfors, S.P. (82) 225  
Hari, R., see Huttunen, J. (82) 176  
Hari, R., see Lu, S.-T. (82) 182  
Hari, R., Rif, J., Tiihonen, J. and Sams, M.  
Neuromagnetic mismatch fields to single and paired tones (82) 152

Hass, P., see Politoff, A.L. (82) 45  
Heldt, G.P., see Liu, A. (82) 30  
Henggeler, B., see Michel, C.M. (82) 38  
Herron, J., see Galin, D. (82) 87  
Hilfiker, P. and Egli, M.  
Detection and evolution of rhythmic components in ictal EEG using short segment spectra and discriminant analysis (82) 255

Hirano, M., see Inouye, T. (82) 203  
Holl, G., Straschill, M., Thomsen, T., Fischer, J.P. and Kewitz, H.  
Effect of the cholinesterase inhibiting substance galanthamine on human EEG and visual evoked potentials (82) 445

Hume, K.I., see Åkerstedt, T. (82) 102  
Huttunen, J., Ahlfors, S. and Hari, R.  
Interaction of afferent impulses in the human primary sensorimotor cortex (82) 176

Ikeda, A., see Nakamura, M. (82) 423  
Ilmoniemi, R.J., see Ahlfors, S.P. (82) 225  
Imajoh, K., see Nakamura, M. (82) 423  
Inouye, T., Shinosaki, K., Sakamoto, H., Toi, S., Ukai, S., Iyama, A., Katsuda, Y. and Hirano, M.  
Abnormality of background EEG determined by the entropy of power spectra in epileptic patients (82) 203  
Iyama, A., see Inouye, T. (82) 203

Jensen, T.S., see Brennum, J. (82) 387  
Jodo, E. and Kayama, Y.  
Relation of a negative ERP component to response inhibition in a Go/No-go task (82) 477

Johnstone, J., see Galin, D. (82) 87  
Jones, S.J., Allison, T., McCarthy, G. and Wood, C.C.  
Tactile interference differentiates sub-components of N20, P20 and P29 in the human cortical surface somatosensory evoked potential (82) 125

Jones, T.A.  
Vestibular short latency responses to pulsed linear acceleration in unanesthetized animals (82) 377

Jonkman, E.J., De Weerd, A.W., Poortvliet, D.C.J., Veldhuizen, R.J. and Emmen, H.  
Electroencephalographic studies in workers exposed to solvents or pesticides (82) 438

Joutsiniemi, S.-L., see Lu, S.-T. (82) 182

Kajola, M., see Lu, S.-T. (82) 182  
Katsuda, Y., see Inouye, T. (82) 203  
Katz, A., see Marks, D.A. (82) 23  
Katzenschlager, R., see Grimm, G. (82) 119  
Kaufman, L., Curtis, S., Wang, J.-Z. and Williamson, S.J.  
Changes in cortical activity when subjects scan memory for tones (82) 266

Kayama, Y., see Jodo, E. (82) 477  
Kemp, B., Värrä, A., Rosa, A.C., Nielsen, K.D. and Gade, J.  
A simple format for exchange of digitized polygraphic recordings (82) 391

Kewitz, H., see Holl, G. (82) 445  
Kitamura, K., see Ochikubo, F. (82) 145  
Knuutila, J., see Lu, S.-T. (82) 182  
Kraaier, V., Van Huffelen, A.C., Wieneke, G.H., Van der Worp, H.B. and Bär, P.R.  
Quantitative EEG changes due to cerebral vasoconstriction. Indomethacin versus hyperventilation-induced reduction in cerebral blood flow in normal subjects (82) 208

Kurtzberg, D., see Giesser, B.S. (82) 320

Lang, V., see Lang, W. (82) 285  
Lang, W., see Asenbaum, S. (82) 469  
Lang, W., Starr, A., Lang, V., Lindinger, G. and Deecke, L.  
Cortical DC potential shifts accompanying auditory and visual short-term memory (82) 285

Lanting, P., see Van Diemen, H.A.M. (82) 213  
LaRocca, N.G., see Giesser, B.S. (82) 320  
Leduc, C.P., see Reiher, J. (82) 17  
Lehmann, D., see Michel, C.M. (82) 38  
Lelord, G., see Martineau, J. (82) 60  
Lemieux, L., Lester, S. and Fish, D.  
Multimodality imaging and intracranial EEG display for stereotactic surgery planning in epilepsy (82) 399

Lesser, R.P., Webber, W.R.S. and Fisher, R.S.  
Design principles for computerized EEG monitoring (82) 239

Lester, S., see Lemieux, L. (82) 399  
Lindinger, G., see Asenbaum, S. (82) 469  
Lindinger, G., see Lang, W. (82) 285  
Liu, A., Hahn, J.S., Heldt, G.P. and Coen, R.W.  
Detection of neonatal seizures through computerized EEG analysis (82) 30

Lu, S.-T., Kajola, M., Joutsiniemi, S.-L., Knuutila, J. and Hari, R.  
Generator sites of spontaneous MEG activity during sleep (82) 182

Lütkenhöner, B.  
Frequency-domain localization of intracerebral dipolar sources (82) 112

Madl, C., see Grimm, G. (82) 119

## Index of Subjects

### VOLUME 82 (1992)

(Abstracts from Society Proceedings are not included)

#### Acetylcholine

- ECoG and behavior, 165
- effect of a cholinesterase inhibitor on EEG and VEPs, 445

#### Acoustic startle reflex, 458

#### Action potentials

- scalp far-field potentials in children, 133

#### Activation

- event-related desynchronization, 302

#### Afferent

- interaction in SE magnetic fields, 176

#### Afferent fibers

- vertex potentials and pain, 387

#### Alerting stimuli in wakefulness and sleep, 458

#### Alpha bandwidth

- cortical activity during memory scan, 266
- lateral gaze and EEG spectral power, 432
- localization of EEG delta-theta-alpha-beta sources, 38
- photic driving in Alzheimer disease, 45

#### Alzheimer disease and photic driving, 45

#### Arousal

- event-related desynchronization, 302

#### Attention

- bilateral mismatch negativity generators, 67
- DC potentials and selective attention, 469
- ERPs and attention deficit hyperactivity disorder, 330
- ERPs and stimulus selection processes, 369
- intermodal selective attention, 341, 356

#### Auditory evoked potentials

- cross-modal association in autistic children, 60

#### Auditory mismatch fields, 152

#### Auditory pathways

- bilateral mismatch negativity generators, 67

#### Auditory stimuli

- intermodal selective attention, 341, 356

#### Auditory task

- cortical DC potentials shifts, 285

#### Autism, 60

#### Autocorrelation

- computerized detection of neonatal seizures, 30

#### Automated EEG interpretation, 423

#### Autoregressive model

- rhythmic components in ictal EEG, 255

#### Awake EEG

- automatic EEG interpretation, 423

#### BAEPs, *see* Brain-stem auditory evoked potentials

#### Behavior and ECoG, 165

#### Beta rhythms

- EEG during reading, 87
- localization of EEG sources, 38

#### Book reviews, 164, 394

#### Brain-stem auditory evoked potentials

- in multiple sclerosis, 139
- in subtentorial tumors, 139
- in zitter rats, 145

#### Breath rhythms, 310

#### Cat

- alerting mechanisms in wakefulness and sleep, 458

#### Central lateral thalamic nucleus

- in alerting mechanisms, 458
- qEEG effects of cerebral ischemia, 208

#### Chick

- vestibular responses in unanesthetized animals, 377

#### Children, *see* Infants

#### Circadian cycles

- sleep on a shortening day, 102

#### Cognitive processes

- ERPs and attention deficit hyperactivity disorder, 330
- ERPs and dementia in MS, 320
- event-related desynchronization, 302

#### Coherence analysis

- as predictor of spike propagation, 10
- during seizure onset, 415

#### Complex partial seizures, 415

#### Compound action potentials

- vestibular responses in unanesthetized animals, 377

#### Computation

- assisted electrode placement, 160
- automatic EEG interpretation, 423
- detection of focal seizures, 1
- detection of neonatal seizures, 30
- polygraphic signal format, 391

#### principles for computerized EEG monitoring, 239

#### stereotactic surgery planning in epilepsy, 408

#### Contrast sensitivity in Parkinson's disease, 453

#### Cortex

- human cortical and subcortical responses, 296
- intermodal selective attention, 341, 356
- subcomponents of cortical surface SEPs, 125
- visually evoked cortical currents, 225

#### Cross-modal association in autistic children, 60

#### Current dipole or source, *see* Generators

Current estimates  
– visually evoked cortical currents, 225

DC potential shifts in short-term memory, 285

Delta rhythms  
– localization of EEG sources, 38

Dementia  
– and ERPs in multiple sclerosis, 320  
– ECoG and behavior, 165
